PROFESSIONAL SUMMARY

D4 Software Engineering student with academic experience developing web and mobile applications using PHP, Laravel, React, and Flutter. Familiar with implementing application features, frontend development, and relational database integration. Also brings foundational IT support experience in network installation, printer and hardware troubleshooting, and technical documentation. Seeking an entry-level opportunity in software development or IT where I can contribute to application development and technical problem solving.

TECHNICAL SKILLS

Hard Skills

- **Programming Languages:** PHP, JavaScript, Python, C++, Java, Dart, HTML, CSS
- **Frameworks & Libraries:** Laravel, React, Flutter
- **Databases:** SQLite, MySQL, PostgreSQL
- **Development Tools:** Git, GitHub, Postman, VS Code, phpMyAdmin
- **IT Support & Networking:** LAN, fiber optic installation, computer hardware troubleshooting
- **Design Tools:** Figma, Canva

Soft Skills

- Problem Solving
- Teamwork
- Communication
- Adaptability
- Time Management

EXPERIENCE

PT Indofarma Tbk | IT Support Intern | 2022 | 2 months | Vocational School Internship

- Assisted with LAN cable crimping and network installation.
- Assisted with fiber optic cable installation.
- Performed basic printer troubleshooting and resolved common printing issues.
- Assisted with laptop hardware troubleshooting and basic technical issue handling.

PT Madina Flash, Bintaro | Technical Support Intern | 2023 | 2 months | Vocational School Internship

- Recorded customer service data and reported smartphone and laptop issues using Microsoft Excel.
- Entered and managed service information through the company's internal application.
- Documented device damage and reported issues to support the technical inspection process.
- Checked spare-part availability based on reported device issues.

PROJECT PORTFOLIO

TMII Information & Ticketing System | Laravel, PHP, MySQL, JavaScript | Academic Project

- Developed a web-based information and ticketing system for TMII as an academic project.
- Developed an administrative CMS to manage website content and system information.
- Implemented ticketing information and purchasing access to simplify the visitor ticketing process.
- Managed tourism information including attractions, news/articles, and other visitor information.

Sistem Edukasi Daur Ulang Sampah(Livora) | Native Web | PHP, HTML, CSS, JavaScript, MySQL | Academic Project

- Developed a web-based system focused on recycling education and waste management.
- Provided educational information about waste and recyclable materials.
- Implemented a concept where recyclable waste can be exchanged for coins and redeemed for rewards.

Recipe Sharing App | Flutter | Academic Project

- Developed a mobile application for sharing and browsing food recipes using Flutter.
- Implemented features for users to submit and exchange recipes with other users.
- Added gamification elements to make recipe sharing more engaging and encourage user participation.

RT Management System | Laravel, PHP, MySQL, JavaScript | Personal Project

- Developed a web-based system to simplify neighborhood administrative record keeping.
- Implemented community financial record management to improve transparency and reduce paper-based administration.
- Added resident data management and announcement features for sharing community information and activities.

EDUCATION

Politeknik Negeri Indramayu | D4 Rekayasa Perangkat Lunak — Teknik Informatika | 2024–Present | GPA: 3.60/4.00

SMK 1 Al-Hadid Cileungsi | Teknik Komputer dan Jaringan (TKJ) | 2021–2024

CERTIFICATIONS & TRAINING

- Belajar Membuat Aplikasi Web dengan React — Dicoding (2026)
- Belajar Membuat Front-End Web untuk Pemula — Dicoding (2026)
- Pemrograman Dart Dasar — ID-Networkers (2026)
- Red Hat System Administration I (RH124) — Red Hat (2026)
- Introduction to Data Science with Python — DQLab (2026)
